

Annual Report Of the Blaxhall Commons and Open Spaces Charitable Trust

2018-2019

Blaxhall Litter Picks: Two litter picks were carried out, with around 20 bags of rubbish being filled, as well as the collection of a number of larger items, mainly from cars.

Website Update: We are grateful to Steve Smedley for taking on the job of adding items to keep it up to date

Hedges: Rodney West and Margaret Grenham have worked with Langmead Farms, and have planted saplings, provided by them, from the Church crossroads towards Tunstall. They have been supported by colleagues in this and further planting of hedgerows, as part of the Blaxhall Environment Group's activities

A12 4 Village bypass: Members of the Trust have supported the work of the group opposing the siting of the bypass south of the A12

Land at Shepherd's Cottage: The Trust received the generous offer of land north of the B1069, and has carried out some basic work on how to progress the offer. This is the main topic of the meeting on April 6th.
